Interface

Fig. 9

22

Receive availability
information for each
individual (1 to n)

Generate single
indicator for each
individual

Fig. 10

Set $k = 1$

For individual k ,
receive at least one
address to send each
content type?

Display individual as
available for that
content type

Display individual as
not available for that
content type

Set $k = k + 1$

$k = n$?

End
